- Diversity earmarks
- Veteran Friendly Exposure

The NDC (Naadee Development Corporation) is a VA approved, non-profit dedicated to assisting job seekers with various barriers. The nV31 Veterans Apprenticeship Program is focused on allowing military veterans with limited actual civilian work experience to work as consultants for companies to gain experience over a 6 month paid apprenticeship term. After the 6 month ramp up they will graduate to junior level professionals allowing them to skip over the entry level phase of employment.

The partner employers will gain access to qualified and highly educated military veterans which will be funneled to specific job roles within their companies. These career paths are built by the NDC, partner companies and the VA career counselors.
